

Political Risks

We specialize in providing tailored insurance solutions designed to protect a client from losses that might be incurred when either trading or investing overseas, particularly in less developed or more economically unstable countries where losses stem directly from action by foreign governments. With access to exclusive facilities for a number of territories and an unrivalled expertise in project finance and structured trade finance deals, we offer a one stop centre for clients seeking to mitigate their exposure to overseas trade and asset, investment and lending risks.

Key Product and Specialist Areas

- Aircraft & vessels
- Comprehensive contractors' plant insurance
- Confiscation of mobile assets
- Confiscation of permanent assets or investments
- Contract frustration for exports
- Contract frustration for imports
